

WELLNESS

The FACE of Local Medicine

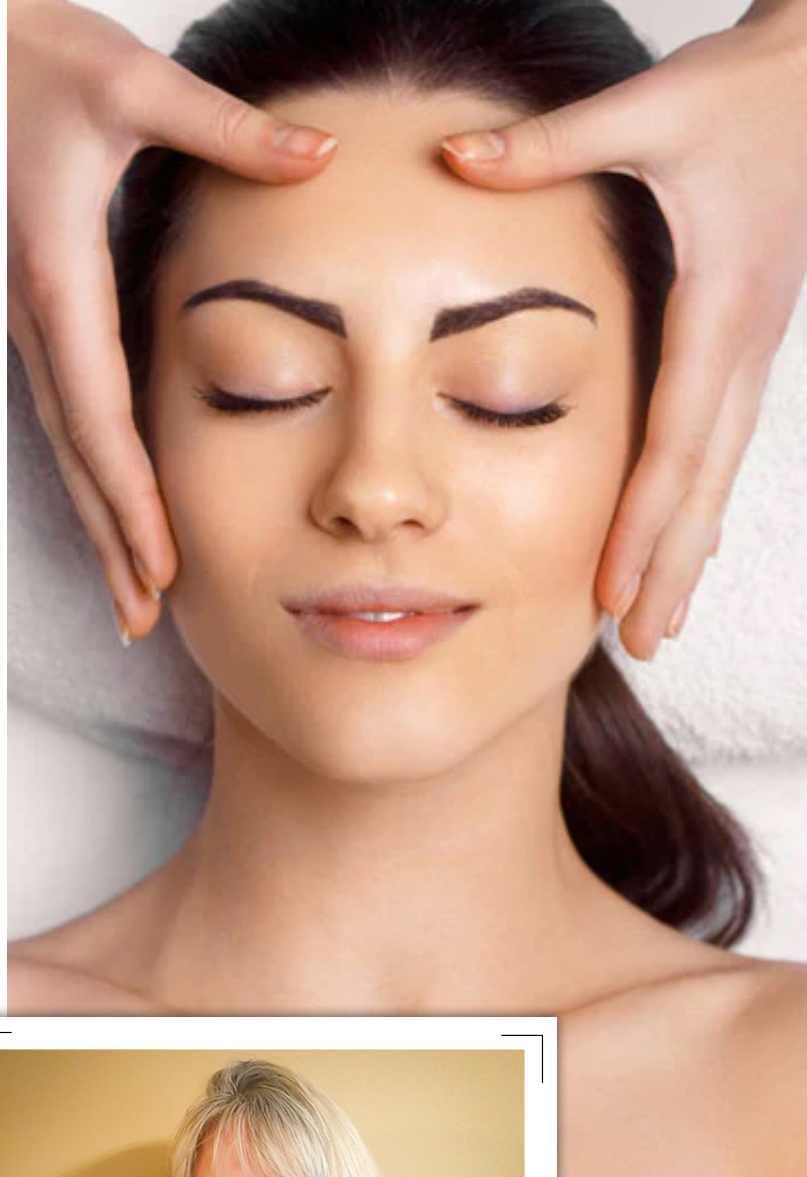

With its founding in 1975, **Monahan**

Chiropractic Medical Clinics' reputation as the oldest chiropractic clinic in St. Augustine is preceded by their reputation for providing the most comprehensive medical services in the area. In addition to providing their standard catalog of highly effective treatments and services, Monahan is always looking to raise the bar even higher. That is why they are now offering Facials! There are five facial options to choose from, including the Ageless Facial which promotes exfoliation to help reveal smoother skin. It also helps to unclog pores and makes skin look clearer. The Vital C Facial cleanses gently without stripping away moisture. It also infuses the skin with vitamins A,C, and E to nourish and boost radiance. The Ormedic Facial foams away impurities, leaving skin soft, hydrated, and clean. It contains organic aloe vera and botanical extracts to soothe delicate skin. The O2 Lift Peel infuses oxygen, plant derived stem cells, peptides, and enzymatic botanicals into the skin for a rejuvenated feel and look. The Glycolic Peel helps reduce deep wrinkles and advanced signs of photo-aging with a blend of glycolic acid and stem cells.

Today, Dr. Meet Patel and

his team are laser focused on healing the body from the inside out. In their one site labs, they are able to determine any underlying conditions and treat skin issues both internally and externally all in one place. Supplementing the five facial options, Monahan's IV service helps to rehydrate and restore vitamin levels. This promotes healthy skin function, reduces signs of aging, and enhances the overall appearance of the skin. In order to promote these exciting new services, Dr. Patel and his team are offering a 20% discount on everything that Monahan Chiropractic Medical Clinics provide.

Supplementing Monahan's already wide range of treatments which includes primary care and weight loss assistance, facials and IV Therapy allow them to offer a more holistic approach to wellness. With benefits such as stress reduction, enhanced relaxation, improved circulation, and a sense of pampering and self-care, facials allow Monahan Clinics to further satisfy their client base by providing services that support both physical and emotional health. Since Dr. Patel has joined the ranks first established by Dr. Clark Monahan all those years ago, the Monahan Chiropractic Medical Clinics' team has employed the

Holly Gang, licensed massage therapist and esthetician

utmost professionals with many years and a large array of experience. "We can help patients with a wide range of services," says Dr. Patel. "We encourage everyone to take advantage of our 20% discount and see why Monahan has been the clinic of choice in the area for

so many years." With offices in St. Augustine, Palm Coast, and Palatka, the Monahan family of clinics continues to grow. Providing relief to patients all over Northeast Florida for nearly half a century, the Monahan name is synonymous with success in the local medical landscape.
